

SOLIDARITY MESSAGE
on behalf of ROMANIAN SOCIETY OF MEDICAL INFORMATICS (RSMI)

Dear Professor Oleg Mayorov,
Dear Ukrainian colleagues,

The Romanian Society of Medical Informatics members are concerned about the worsening situation in Ukraine and express their solidarity with their colleagues in the Ukrainian Society of Medical Informatics and with the entire Ukrainian people. We admire the heroes who risk their lives to stop these reckless actions with no future.

One of our goals is to collaborate with our colleagues worldwide – or, this goal can be achieved only in peaceful times. That is why we make a strong call for reason and find peaceful solutions to the conflict. We hope that this nightmare will end soon.

The Board of RSMI
