## Healthcare Green Digital Ecosystems: From Data Analysis to Digital Twin

HYBRID: Timișoara & Online

### RoMedinf 37<sup>th</sup> Conference

14-15 September 2023

Hybrid, Timisoara, Romania

RoMedINF37 Organizing Committee, Scientific Programme Committee and co-organizers are looking forward to welcoming you to the conference in Timișoara (Ro, European Capital of Culture in 2023) or Online, 14-15 September 2023.

The topic of conference is "Healthcare Green Digital Ecosystems: From Data Analysis to Digital Twin" and aim to connect health technology companies, researchers, practitioners, and end users, including general population, across the globe.

We invite you to be an active or passive participant to a two-day scientific meeting of talks, activities and workshops.

**Deadline for abstract submission is 15 July 2023.**

Early registration will be open until **31 July 2023**.

### Applied Medical Informatics

Welcomes manuscript submission

Share your scientific experience in health informatics, from idea to development, implementation, and evaluation. Prepare your manuscript using our [template](#), fill the [cover letter](#), and submit ([register](#) if you have no account or [login](#)).

[Appl Med Inform](#) is currently indexed in several international databases (consult the full list [here](#)). Your manuscript will be checked for plagiarism before inviting reviewers to provide constructive feedback. Decision is made once at least two review reports are available. Accepted articles are published as Ahead of print.

Please share this call for contributions with your colleagues and peers.

Join [Appl Med Inform](#) community!

## Marie Skłodowska-Curie Actions

Developing talents, advancing research

### MSCA call for Postdoctoral Fellowships

The 2023 call for the Marie Skłodowska-Curie Actions Postdoctoral Fellowships is open

MSCA opens €260 million call for Postdoctoral Fellowships.

Postdoctoral Fellowships give researchers holding a PhD a chance to gain new skills and experience whilst carrying out their own research project abroad. The deadline to apply is 13 September 2023.

The 2023 call for the Marie Skłodowska-Curie Actions Postdoctoral Fellowships is open .

With a budget of € 260.47 million, these grants will enhance the creative and innovative potential of researchers holding a PhD and wishing to acquire new skills through advanced training and international, interdisciplinary, and inter-sectoral mobility.

The call is open to applications in any scientific field, including Euratom research.

Fellowships include

- **European Postdoctoral Fellowships**, open to researchers of any nationality to carry out a personalised project in the EU or countries associated to Horizon Europe
- **Global Postdoctoral Fellowships**, open to European nationals or long-term residents wishing to work with organisations in third countries before returning to Europe

Researchers must apply together with a host organisation, which can be a university, research institution, business, small or medium-sized enterprise, or other organisation based in an EU Member State or Horizon Europe associated country.

The scheme encourages researchers to gain experience beyond academia by giving them the opportunity to request an additional six months at the end of their fellowship to undertake a placement in a non-academic organisation in Europe.

The call is open to researchers wishing to reintegrate in Europe, to those who are displaced by conflict, as well as to researchers with high potential who are seeking to restart their careers.

The call will close on **13 September 2023** and is expected to fund over 1,200 projects.

#### ERA Fellowships

Researchers applying for a European Fellowship with a host organisation from a "widening country" (i.e. a country with low participation rates in Horizon Europe) can opt in to be considered for the [ERA Fellowships](#) call.

The ERA Fellowships will fund high-scoring proposals submitted under the MSCA Postdoctoral Fellowships which cannot be funded due to budget constraints.

#### Indicative timeline

- 12 April 2023: Launch of the call for proposals
- 13 September 2023: Deadline to submit proposals
- February 2024: Notification of call results to applicants (TBC)
- March-May 2024: Grant agreement signature for successful projects (TBC)
- April-May 2024: First EU-funded projects start (TBC)

## Romanian Society of Medical Informatics

### RSMI Services

We have taken a first stab at defining services that RSMI can offer to the general audience.

If you are interested in supporting this initiative please fill in the [FORM](#).

RSMI will reward your effort with the free renewal of the membership. For more constant and consistent efforts, more benefits shall be awarded: professional training courses fees, conference participation fees up to payment of article publication fees.
